

TRICKS OF THE LIGHT

-Fire and Comedy Stage Show-

ABOUT

A high-energy fire and comedy entertainment duo. Cyricx and Violca dance with flames, draw with light, and defy the danger of the elements. They have a lot of laughs, too. A full-service fire show, with fire spinning solos and choreographed duos (intricately entwined fire spinning). Cyricx's background in martial arts and Violca's background in dance create unique and dynamic styles on stage. With 25 years combined fire spinning experience, this duo is sure to astound audiences with their mastery of the element of fire. Tricks of the Light aims to have your audience laughing, hollering, and staring in wonder. For larger shows, we can bring in associate performers to increase the spectacle.

EXAMPLE 15-MINUTE FIRE SHOW SET, 4 Performers

1. Intro: **Fire Breathing, Fire Poi, and Fire Orb Dancing**
2. Solo: **Fire Hula Hoop**
3. Duo: **Dragonstaff**
4. Finale: **Triple Fire Staff**

LOGISTICS

INSURANCE: Performers are covered by Performer's Personal Liability Insurance through Specialty Insurance Agency on \$1 million per occurrence/\$2 million general aggregate individual policies. Additionally Insured Certificates can be obtained if requested at least 2 weeks before the event.

SAFETY: Tricks of the Light takes every reasonable safety precaution when performing with fire, and employs at least one fire safety person for shows. Our spotters undergo an intense hour long fire safety course before coming with us to any performances, and are trained to be aware of the safety of the audience first and foremost. We use fuel that is the industry standard for fire performance.

STAGE REQUIREMENTS: Due to the nature of the unique fire tools we use, we do need a performance area that is free of overhead obstructions (low hanging branches, etc.), and of decent size. Indoor performances are possible but require consultation to ensure specifications are met and may incur additional costs. Fire breathing cannot be done indoors.
